# WEATHER CLAD® COLLECTION

“

Let the exterior of your home reflect your personality through the use of your favourite colour. Be brave with your home it should be a reflection of you. ”

*Roisin Lafferty*

Fleetwood Paints  
Brand Ambassador

**kld.**

Most colours look paler in natural daylight. Always try a tester pot first

### Designer Insight

When choosing your exterior colour you have to consider the period and architectural style of your home and the dominant features. Then think of the visual effect you want...

### Designer Insight

‘Location and light informs all when choosing outside colour. Owners of houses in more rural areas especially should choose colour sympathetic with their surroundings. The combination of natural stone and slate colours look welcoming to come home to, and forge a natural relationship between the house and the landscape.’
